**Cross Sectional Shape:**

Round

**Wall Thickness:**

Between 3.25 millimeters and 4.76 millimeters

**End Application:**

NSN2-33-001-4476

**Connection Type:**

Plain first end

**Maximum Operating Pressure:**

42.0 pounds per square inch

**Measuring Method And Length:**

80.5 millimeters

**Material:**

Rubber silicone class q all plies

**Style Designator:**

Sleeve section

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A229a0
