**Cross Sectional Shape:**

Round

**Inside Diameter:**

0.4375 inches

**Outside Diameter:**

0.500 inches

**End Application:**

1440-01-364-3292, launcher-transporter, guided missile, p/n 13235388, 18876

**Maximum Operating Pressure:**

3000.0 pounds per square inch

**Measuring Method And Length:**

256.000 inches

**Product Name:**

Hose assembly, tetrafluoroethylene, hydraulic and pneumatic, (3000 psi), straight to elbow 90 degree flareless

**Media For Which Designed:**

Hydraulic fluid single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A542a0
