Their entitle at https://doi.oba.obg.com/no.iv/1/2001/1/2002/
Tempurature Rating:
-65.0 degrees fahrenheit and 400.0 degrees fahrenheit single response
End Application:
Aircraft, hercules c-130
Maximum Operating Pressure:
500.0 pounds per square inch
Hydrostatic Test Pressure:
750.0 pounds per square inch
Product Name:
Hose assembly, polytetrafluoroethylene
Special Features:
Basic material fittings corrosion resistant steel, protective treatment cres, passivated per qq-p-35
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
File:
