Nonmetallic Hose Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4720-01-472-5669

Tempurature Rating:	
-65.0 degrees fahrenheit and 400.0 degrees fahrenheit single response	
End Application:	
Aircraft, hercules c-130	
Maximum Operating Pressure:	
500.0 pounds per square inch	
Hydrostatic Test Pressure:	
750.0 pounds per square inch	

Product Name:

Hose assembly, polytetrafluoroethylene

Special Features:

Basic material fittings corrosion resistant steel, protective treatment cres, passivated per qq-p-35

Shelf Life: N/a Unit Of Measure:

Demilitarization:

No

Fiig:

A542a0
