# **Tempurature Rating:**

-65.0 degrees fahrenheit and 400.0 degrees fahrenheit single response

# **End Application:**

Aircraft, hercules c-130

# Maximum Operating Pressure:

500.0 pounds per square inch

### Hydrostatic Test Pressure:

750.0 pounds per square inch

#### **Product Name:**

Hose assembly, polytetrafluoroethylene

#### **Special Features:**

Basic material fittings corrosion resistant steel, protective treatment cres, passivated per qq-p-35

#### Shelf Life:

N/a

#### Unit Of Measure:

--

# Demilitarization:

No

#### Fiig:

A542a0
