Nonmetallic Hose Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/4720-01-472-5671>

Tempurature Rating:

-65.0 degrees fahrenheit and 400.0 degrees fahrenheit single response

End Application:

Aircraft, hercules c-130

Maximum Operating Pressure:

500.0 pounds per square inch

Hydrostatic Test Pressure:

750.0 pounds per square inch

Product Name:

Hose assembly, polytetrafluoroethylene

Special Features:

Basic material fittings corrosion resistant steel, protective treatment cres, passivated per qq-p-35

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
