## **Tempurature Rating:**

-65.0 degrees fahrenheit and 400.0 degrees fahrenheit single response

## **End Application:**

Aircraft, hercules c-130

# Maximum Operating Pressure:

500.0 pounds per square inch

## Hydrostatic Test Pressure:

750.0 pounds per square inch

## **Product Name:**

Hose assembly, polytetrafluoroethylene

### **Special Features:**

Basic material fittings corrosion resistant steel, protective treatment cres, passivated per qq-p-35

#### Shelf Life:

N/a

## Unit Of Measure:

--

# Demilitarization:

No

## Fiig:

A542a0
