**Cross Sectional Shape:**

Round

**Temperature Rating:**

-65.0 degrees fahrenheit single response and 500.0 degrees fahrenheit single response

**Outside Diameter:**

0.625 inches

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

32.500 inches

**Product Name:**

Hose assembly, detachable fittings, tetrafluoroethylene, high temperature, medium pressure, flare to flare

**Specification Data:**

96906-ms8000 government standard

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A542a0
