**Cross Sectional Shape:**

Round

**Inside Diameter:**

0.720 inches

**Outside Diameter:**

0.600 inches

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

5.000 inches

**Product Name:**

Coupling, hose

**Special Features:**

Synthetic rubber material must be resistant to synthetic turbine oil, fuels, and saltwater (i.E. Nitrile as found in pn 951212-1)

**Material:**

Rubber synthetic tube

**Media For Which Designed:**

Water, salt single response and fuel/oil, hydrocarbon single response

**Specification Data:**

81349-mil-r-6855 government specification and 63631-drawing 405670 manufacturers source control

**Specification Or Standard:**

1 class and 60 grade and 6.00 size

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A541z0
