Wall Thickness:

0.170 inches

Width:

2.590 inches

End Application:

HEAV-YE-QUI-PMEN

Outer Radius:

7.000 inches

First Arm Length:

10.880 inches

Product Name:

Hose, coolant

Special Features:

Hose supplied with internal spring

Material:

Rubber synthetic cover or rubber natural cover

Material Specification:

Sae 20r4, type ec, class 2 assn standard single material response tube

Style Designator:

Continuous curve

Working Length:

18.756 inches

Specification Data:

45152 mil-std-130 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0
