Cross Sectional Shape:

Round

Temperature Rating:

-100.0 degrees fahrenheit single response and 500.0 degrees fahrenheit single response

Exterior Color:

Red

End Application:

M105 mod-4

Layer Composition And Location:

2nd layer rubber composition

Outer Covering Environmental Protection:

Fire resistant and hydraulic solution resistant and ozone resistant and water resistant

Inside Surface Condition:

Smooth

Material:

Glass fiber tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
