Cross Sectional Shape:

Round

Inside Diameter:

0.188 inches

Outside Diameter:

0.375 inches

Exterior Color:

Clear

End Application:

Navy mk105 mod4 minesweeper

Inside Surface Condition:

Smooth

Product Name:

Flex tubing

Special Features:

Tube is used on hydraulic pump 56271 for draining purposes; material: clear tygothane polyurethane; tubing shall be compatible with oil (mil-I-23699), fuel (mil-t-5624), and hydraulic fluid (mil-h-5606); tubing shall withstand temperatures up to 180f continuous and 200f intermittent, without loss of transparency

Material:

Plastic polyurethane tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
