Nonmetallic Tubing - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4720-01-481-7833

Cross Sectional Shape:
Round
Inside Diameter:
0.188 inches
Outside Diameter:
0.375 inches
Exterior Color:
Clear
End Application:
Navy mk105 mod4 minesweeper
Inside Surface Condition:
Smooth
Product Name:
Flex tubing
Special Features:
Tube is used on hydraulic pump 56271 for draining purposes; material: clear tygothane polyurethane; tubing shall be compatible with oil
(mil-l-23699), fuel (mil-t-5624), and hydraulic fluid (mil-h-5606); tubing shall withstand temperatures up to 180f continuous and 200f
intermittent, without loss of transparency
Material:
Plastic polyurethane tube
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A54200
