Cross Sectional Shape:

Round

Thread Direction:

Right-hand 1st end

Outside Diameter:

0.625 inches

End Application:

Pump, plumbing, p1 pressure washer, discharge injection

End Connection Design:

Straight 2nd end

Inside Surface Condition:

Smooth

Measuring Method And Length:

75.0 feet

Product Name:

Water inlet hose assembly

Special Features:

One end has internal threads and the other end has external threads

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
