End Application:

Calibration kit ec-f2, electro-chemical f2 sensor

Product Name:

Calibration adapter with hose

Special Features:

This adapter and hose are part of a calibration kit that includes this adapter and hose, valve, flow meter, 2 portable bottles filled with dry gas appropriate for the sensor, and case; zero and span adjustments on the ec-f2 sensor

Supplementary Features:

Calibration adapter 1, and length of hose 1; calibration adapter slips over sensor

Fsc Application Data:

Calibration kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
