Cross Sectional Shape:

Round

Inside Diameter:

0.623 inches

Outside Diameter:

0.687 inches

End Application:

Sh-2g helicopter

Measuring Method And Length:

6.820 inches

Special Features:

One end is cut at a 50 degrees angle

Material:

Plastic phenolic tube and cotton tube

Material Specification:

Mil-p-79, form tm, type fbe military specification single material response tube

Fsc Application Data:

Nha pn k831250

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200

Mil-std (military Standard):

Mil-p-79 spec.
