Cross Sectional Shape:

Round

Inside Diameter:

4.000 inches first end

End Application:

Ship, ventilation

Connection Type:

Plain first end

Criticality Code Justification:

Feat

Measuring Method And Length:

31.160 inches

Product Name:

Branch ventilation assembly

Special Features:

Weapon system essential; assembly attaches to vent duct, has one end closed with handle to allow open/close of air outlets; includes air duct, mounting bracket, bearings, bushings, and handle

Material:

Stainless steel all plies

Material Specification:

Qq-s-763, cl304, cond a, fin 28 federal specification single material response all plies

Style Designator:

Perforated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
