Cross Sectional Shape:

Round

Inside Diameter:

1.250 inches

Outside Diameter:

1.625 inches

End Application:

Seawolf class submarine - nuclear reactor boundary area

Measuring Method And Length:

25.0 feet

Product Name:

Ftgs misc shipboard use

Special Features:

Tube inside is inner braided

Material:

Plastic tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54200
