End Application:

Tester assembly, pbg p/n 3307200 for f-15 aircraft

Inside Surface Condition:

Smooth

Measuring Method And Length:

47.000 inches excluding end fittings and 49.000 inches excluding end fittings

Product Name:

Hose assembly, air inlet

Special Features:

P/n 3307259-1 adapter assembly, air lilet; 3307264-1 tubing, latex 2 each 24 inches; 3307160-2 packing, performed 2; 3307266-5 marker, printable 1; 3307266-7 marker, printable 1; 3307266-8 marker, printable 1; 3307266-9 marker printable 1; 240az lubricant ar; 3307369-1 tank, vacuum 1

Media For Which Designed:

Air single response

Special Test Features:

Must conform to litton instruments and life support division, manufacturing-quality standard st1637803

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
