**Cross Sectional Shape:**

Round

**Temperature Rating:**

-40.0 degrees fahrenheit single response and 158.0 degrees fahrenheit single response

**End Application:**

Jp-5 equipment

**Product Name:**

Gold label aircraft refueling hose

**Special Features:**

Black nitrile; black semi-conductive neoprene cover; multiple textile braids reinforcement; inner conveying tube material: nitrile rubber

**Media For Which Designed:**

Fuel/oil, hydrocarbon single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A541z0
