Cross Sectional Shape:

Round

End Application:

Sh-2g seasprite helicopter

Measuring Method And Length:

20.000 inches

Product Name:

Hose assembly air, fuel, lube and fire protection

Special Features:

Fitting both ends identical except fitting angle; fitting end 1 flared nut end fitting, size 10, angle 45; fitting end 2 flared nut end fitting, size 10, angle 90; material anodized aluminum nut or flange and nipple; material of socket depends on limited design anodized aluminum, current design is corrosion resistant steel

Media For Which Designed:

Air single response and fuel/oil, hydrocarbon single response

Fsc Application Data:

Nha kpd 878301

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
