Cross Sectional Shape:

Round

Inside Diameter:

0.140 inches

Outside Diameter:

0.985 inches

Exterior Color:

Black

End Application:

Filter skid; wsd supply class aoe

Measuring Method And Length:

5.780 inches

Product Name:

Coupler

Special Features:

Material: 20 per cent glass filled noryl, hollow tube or solid rod gfn2; include two o-rings, parker 3-912, 70 durometer, epr gmid151075; o-rings are installed on couplers by vendor; certificate of o-ring identification required for each shipment

Media For Which Designed:

Water, salt single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
