Inside Diameter:

6.350 millimeters

Tempurature Rating:

-65.0 degrees fahrenheit single response and 350.0 degrees fahrenheit single response

Exterior Color:

Blue

Outside Length:

1753.0 millimeters

End Application:

Nsn 2320-01-447-6345, chassis, truck; fmtv

Measuring Method And Length:

1753.0 millimeters excluding end fittings

Special Features:

Construction: fiber reinforced elastomer composite

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
