Cross Sectional Shape:

Round

Inside Diameter:

35.0 millimeters

Tempurature Rating:

-65.0 degrees fahrenheit single response and 350.0 degrees fahrenheit single response

Outside Diameter:

25.0 millimeters

End Application:

Family of medium and light tactical vehicles (fmtv); 2320-01-447-6345.

Burst Test Pressure:

250.0 pounds per square inch single response

Inside Surface Condition:

Smooth

Measuring Method And Length:

1003.0 millimeters

Product Name:

Hose, coolant

Material:

Rubber silicone class q tube

Media For Which Designed:

Water single response and ethylene glycol single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
