Cross Sectional Shape:

Round

Inside Diameter:

9.500 inches first end

End Application:

C-17a

Measuring Method And Length:

4.000 inches

Product Name:

Hose, air duct - nonmetallic sleeve type

Special Features:

weight .15lb; operating pressure is 1.1 psig at 250f; proof pressure is 2.2 psig at 250f; burst pressure is 4.4 psig at 250f

Material:

Rubber chloroprene class cr all plies

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
