Cross Sectional Shape:

Round

Inside Diameter:

0.625 inches

Outside Diameter:

0.875 inches

End Application:

Ship

Criticality Code Justification:

Feat

Inside Surface Condition:

Smooth

Measuring Method And Length:

14.000 inches

Product Name:

Tube

Special Features:

Weapon system essential; material superthane

Material:

Plastic tube

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54200
