**Cross Sectional Shape:**

Round

**Inside Diameter:**

1.000 inches

**Outside Diameter:**

1.250 inches

**End Application:**

Ship

**Criticality Code Justification:**

Feat

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

34.000 inches

**Product Name:**

Tube

**Special Features:**

Weapon system essential; material superthane

**Material:**

Plastic tube

**Media For Which Designed:**

Hydraulic fluid single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A54200
