Cross Sectional Shape:

Round

End Application:

Sh-2g seasprite helicopter

Flow Angle:

90.0 degrees 1st end

Measuring Method And Length:

6.700 inches working

Product Name:

Hose assembly

Special Features:

Rubber inner with metallic outer reinforcement; fitting material anodized aluminum nut or flange nipple; hose and fitting size 0.750

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Fsc Application Data:

Nha instl-fuel lines, fuselage k879301

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
