**Cross Sectional Shape:**

Round

**End Application:**

Sh-2g seasprite helicopter

**Flow Angle:**

90.0 degrees 1st end

**Measuring Method And Length:**

21.800 inches working

**Product Name:**

Hose assembly

**Special Features:**

Rubber inner with metallic outer reinforcement; fitting material corrosion resistant steel nut or flange, socket and nipple; hose and fitting size 0.250

**Media For Which Designed:**

Fuel/oil, hydrocarbon single response

**Fsc Application Data:**

Nha instl-fuel lines, fuselage k879301

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A542a0
