**Cross Sectional Shape:**

Round

**Inside Diameter:**

1.000 inches

**Burst Test Pressure:**

300.0 pounds per square inch single response

**Layer Composition And Location:**

2nd layer helix wire coil err-100

**Hydrostatic Test Pressure:**

100.0 pounds per square inch single response

**Outer Covering Environmental Protection:**

Weatherproof and oil resistant and ozone resistant

**Inside Surface Condition:**

Smooth

**Special Features:**

Specify length in feet

**Media For Which Designed:**

Water single response

**Specification Data:**

58536-a-a-59566 professional/industrial association specification

**Specification Or Standard:**

A grade and a style and 1 class

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A541z0
