Cross Sectional Shape:

Round

Temperature Rating:

-50.0 degrees fahrenheit single response and 212.0 degrees fahrenheit single response

End Application:

Wheeled tanker

Connection Type:

Threaded internal tube 1st end

Maximum Operating Pressure:

5000.0 pounds per square inch

Measuring Method And Length:

136.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
