**Cross Sectional Shape:**

Round

**Temperature Rating:**

-50.0 degrees fahrenheit single response and 212.0 degrees fahrenheit single response

**End Application:**

Wheeled tanker

**Connection Type:**

Threaded internal tube 1st end

**Maximum Operating Pressure:**

5000.0 pounds per square inch

**Measuring Method And Length:**

136.000 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A542a0
