**Cross Sectional Shape:**

Round

**Wall Thickness:**

0.220 inches

**Inside Diameter:**

0.750 inches both ends

**Outside Diameter:**

1.190 inches both ends

**End Application:**

Mk 7 mod 2, 3, & 4

**Connection Type:**

Coupling both ends

**Measuring Method And Length:**

15.000 feet

**Product Name:**

Hose assembly, air duct (inavy), hose assembly, air motor barricade winch (drawing name)

**Coupling Style:**

External quick-disconnect both ends

**Special Features:**

Used to connect air motor and ships lp air

**Material:**

Steel both end couplings

**Style Designator:**

Sleeve section

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A229a0
