Inside Diameter:

Between 0.734 inches and 0.766 inches

Outside Diameter:

Between 1.063 inches and 1.125 inches

End Application:

Eurofighter aircraft

Special Features:

hose size 0.750 inches; burst pressure 1000 psi; proof pressure 500 psi

Material:

Rubber synthetic tube

Specification Data:

81349mil-dtl-6000c government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
