Wall Thickness:

0.187 inches

Inside Diameter:

1.500 inches

End Application:

Forward propulsion system

Bend Radius:

3.000 inches

Features Provided:

Protective cap

Criticality Code Justification:

Feat

Product Name:

Molded hose

Special Features:

Critical technology, export control; includes coupling, 4 clamps

Material:

Rubber natural or rubber synthetic

Style Designator:

Two bend

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0
