Cross Sectional Shape:

Rectangular

Inside Width:

15.170 inches both ends

Outside Width:

16.170 inches both ends

End Application:

Lgm-30 minute man iii

Connection Type:

Flange both ends

Measuring Method And Length:

12.000 inches

Product Name:

Flexible duct assembly

Coupling Style:

Plain flange both ends

Special Features:

Duct used on missile alert facility, environmental control system

Material:

Aluminum both end couplings and rubber both end couplings

Style Designator:

Box section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
