Cross Sectional Shape:

Round

End Application:

NSN:-23-200-1518

Maximum Operating Pressure:

300.0 pounds per square inch

Measuring Method And Length:

59.2 millimeters excluding end fittings

Product Name:

Line assembly / ac, discharge

Supplementary Features:

All hoses must be compatible with r134-a refrigerent and polyalkaline glycol refrigerent oils. Hose material must be goodyear 4860 or engineer approved equivalent. 100% leak test hose assembly with 300psi helium mass spectrometer to 5.3×10^{-5} atm cc/sr.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
