Cross Sectional Shape:

Round

Temperature Rating:

-65.0 degrees fahrenheit single response and 450.0 degrees fahrenheit single response

Outside Diameter:

1.000 inches

End Connection Design:

Straight 1st end

Outer Covering Environmental Protection:

Fire resistant and heat resistant

Measuring Method And Length:

40.000 inches working

Special Features:

Temp to 450 degrees f, intermittently to 500 degrees f

Special Test Features:

Firesleeve per sae as1072 type 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
