**Cross Sectional Shape:**

Round

**Temperature Rating:**

-60.0 degrees fahrenheit single response and 160.0 degrees fahrenheit single response

**End Application:**

5420-00-889-2020

**Measuring Method And Length:**

33.000 inches

**Product Name:**

Hose assembly

**Special Features:**

First end is straight/2nd end is elbow with a 90 degree bend

**Supplementary Features:**

The assembly shall meet cleanliness requirements per mil-std-1246, level 300. Packaging shall be sufficient to maintain level of specified cleanliness during shipping/fitting will be made of corrosion resistant steel, type 304

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A542a0
