## NSN 4720-01-545-0255

Nonmetallic Hose Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4720-01-545-0255

## **Tempurature Rating:**

-65.0 degrees fahrenheit single response and 300.0 degrees fahrenheit single response

**Product Name:** 

Hose assembly, rubber, medium pressure

## **Special Features:**

Shelf Life:

**Fiig:** A542a0

Inner tube: seamless, specially formulated synthetic compond; reinforcement: stainless steel wire braid consisting of partial inner braid and full coverage couter braid; fluid compatibility: versatile inner tube is compatible with nearly all petroleum-based oils, aviation gas and jp fuels; unaffected by alcohols, coolants and solvents commonly used in aerospace systems; operating temperatures-fluid: -65 to 300 degree fahrenheit, ambient: -65 to 250 degree fahrenheit
