Cross Sectional Shape:

Round

Inside Diameter:

0.625 inches

Maximum Operating Pressure:

3988.5 pounds per square inch

Measuring Method And Length:

21.772 inches

Product Name:

Hose, hydraulic-fabricated

Special Features:

Both end sizes are 1.188 inches; 1st end type 35, 2nd end type 36090; material r-12

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
