Cross Sectional Shape:

Round

End Application:

Submarine class

Inside Surface Condition:

Smooth

Measuring Method And Length:

120.000 inches

Product Name:

Calibration rig, co2 sensor

Special Features:

Assembly consists of: tubing 3/8 inch diameter-50foot; 1 ea. Adapter, male pipe; 2 ea. Hose clamps; 1 ea. Block adapter; 1 ea. Adapter, male pipe

Material:

Plastic

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
