End Application:

2320-01-508-8598

Inside Surface Condition:

Smooth

Measuring Method And Length:

317.0 millimeters

Product Name:

Hose, coolant

Special Features:

Construction: fiber reinforced elastomer composite; fiber reinforced plastomer composite construction; hose shall operate within the temperature range of -65 degrees to 350 degrees f continuous service.

Media For Which Designed:

Water 1st response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
