Cross Sectional Shape:

Round

Wall Thickness:

4.5 millimeters

Tempurature Rating:

-40.0 degrees fahrenheit single response and 135.0 degrees fahrenheit single response

Exterior Color:

Black

Inside Width:

16.0 millimeters

End Application:

P/n 186k0000 nsn 4310-01-542-6865; compressor unit

Layer Composition And Location:

1st layer braided textile yarn

Outer Covering Environmental Protection:

Heat resistant and ozone resistant

Product Name:

Hose

Special Features:

Material is gates flexcord plus 15x3 5v-din 73411-b or equal; attached with a hose clamp on each end; straighted length of hose 500 mm; t.O. 34y1-180-1 figure 7-7 index 12

Material:

Rubber synthetic tube

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
