Cross Sectional Shape:

Round

Outside Diameter:

0.750 inches

End Application:

2320-01-552-7762; truck, wrecker

Layer Composition And Location:

1st layer braided steel wire and outer layer molded plastic

Outer Covering Environmental Protection:

Weatherproof

Measuring Method And Length:

108.000 inches working

Product Name:

Hose assembly, formed, 0.75 inch od

Special Features:

End fittings of carbon steel with zinc plate

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
