Cross Sectional Shape:

Round

Inside Diameter:

Between 0.487 inches and 0.533 inches

Outside Diameter:

Between 0.969 inches and 1.031 inches

End Application:

M-atv

Measuring Method And Length:

60.000 inches

Product Name:

Hose assembly no. 10 cr 60.0 2522

Special Features:

Made of rubber

Supplementary Features:

1st end style straight, male o-ring type, .88-18 thread, steel w/zinc plating (p/n s1403); 2nd style 90 degrees short drop, female o-ring type, .88-14 thread, steel w/zinc plating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A542a0
