**Product Name:**

Hose assembly, polytetrafluoroethylene high pressure - crimped

**Special Features:**

Basic matl: titanium; temp range -65 degrees f to +400 degrees f (-54 degrees c to +204 degrees c); protective treat titanium none, per ams 2700 (aces 16), hose size h, dashsize 8 thread .5625-20 unjs-3b, hose id 0.45, hose od 0.70; c/o 2 elbow subassy, 2 socket, hose (ar), sleeve (ar); angle in deg 249; fraction of an inch in eighths 4; length of assembly in inches 020

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
