Cross Sectional Shape:

Round

Tempurature Rating:

-40.0 degrees celsius single response and 135.0 degrees celsius single response

Inner Conveying Tube Style:

Plain

End Application:

5225 and 5325 jogn deere tractor

Product Name:

Radiator hose, lower

Special Features:

Hose shaped like a question mark, 3 bend; 0.86 lbs; resistant to electrochemical degradation

Media For Which Designed:

Liquid, coolant 1st response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0
