**Cross Sectional Shape:**

Round

**Temperature Rating:**

-40.0 degrees celsius single response and 135.0 degrees celsius single response

**Inner Conveying Tube Style:**

Plain

**End Application:**

5225 and 5325 jogn deere tractor

**Product Name:**

Radiator hose, lower

**Special Features:**

Hose shaped like a question mark, 3 bend; 0.86 lbs; resistant to electrochemical degradation

**Media For Which Designed:**

Liquid, coolant 1st response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A542b0
