Cross Sectional Shape:

Round

Inside Diameter:

0.500 inches

Temperature Rating:

-40.0 degrees celsius single response and 100.0 degrees celsius single response

Outside Diameter:

0.875 inches

Burst Test Pressure:

14000.0 pounds per square inch

Maximum Operating Pressure:

3500.0 pounds per square inch

Vacuum In Torr:

30.0

Inside Surface Condition:

Smooth

Product Name:

(navy)h425 high pressure fleet and implement hose

Special Features:

Inner tube is neoprene (1/4"), nitrile (3/8" to 1-1/4"); two steel braids reinforcement; outer cover is neoprene; exceeds sae 100r2at-08

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
